FROM THE
COMMITTEE OF SECRECY

Appointed to Enquire into

The STATE of the EAST-INDIA COMPANY.

The Committee of Secrecy appointed to "enquire into the State of the East-India Company, and for that purpose to inspect the books and accounts of the said Company, and to report to the House what they find material therein, in respect to the debts, credits, and effects of the Company, as also to the management and present situation of the Company's affairs, together with their observations thereupon,"

HAVING made their report of what they found material with respect to the debts, credits, and effects of the Company, proceeded, in pursuance of another part of the aforesaid order, to enquire into the situation of the Company's affairs, and first with respect to the profits which the Company derive from their commerce, or from the territorial acquisitions lately obtained in the East-Indies: and as such of the Company's profits as they are able to realize in England, are the only fund out of which any dividend can be made to the Proprietors of the said Company, or any payment to the Public, your Committee thought it right, in the first place, to endeavour to shew to the House, what those profits appear to have been. And your Committee having enquired in what manner any part of the revenues arising from the said territorial acquisitions have hitherto been remitted from the countries where they are collected, they find that part of the said revenues have been remitted from one presidency to another, and to China, in cash and by bills, as well as by goods; but that no part of them have hitherto been remitted to England except by means of the Company's investments; and consequently, that the profits which the Company have received from the said revenues, are included in the produce of their sales. In order therefore to shew the profits which the Company have derived from their commerce, or from the revenues aforesaid, as far as the same have been realized in England, your Committee will begin by stating to the House an account of the produce of the Company's sales and their other receipts, and of their payments in England for ten years, distinguishing each year, and of what was owing by the Company in England at the end of each of the said years. And, in the next place, your Committee will state the amount of what has been received from the revenues arising from the said territorial acquisitions, and of all other receipts at the several presidencies, and at St. Helena, and, *per contra*, of all charges and disbursements there, and also of the receipts of the Company in China, and of all disbursements there for ten years, distinguishing each year; and they will state this account under such heads, as will best enable the House to judge, in what manner, and to what degree, these revenues have contributed to the profits of the Company in England.

And in stating the annual account of the produce of the Company's sales, and their other receipts, and of their payments, and of the debts of the Company in England, at the end of each year, your Committee will consider every year as ending on the first day of March; as on that day the Company have generally received all payments arising from the produce of the sales of March and September preceding; and as all charges and expences for the outfits of the ensuing season are then for the most part incurred; and further, as all ships of the preceding season are generally then arrived, and no ship of the ensuing season is yet arrived; so that the Company's affairs are then in such a situation, as to make this period the most proper at which to state the balance in favour or against the Company, on their affairs in each year in England. And your Committee will add at the foot of the credit side of every annual account, the value of the goods then remaining in the Company's warehouses in England, in order to shew in what proportion they have increased or diminished their stock in England during each respective period.

Your Committee expected to find in the books of the Company some account similar to that which they now intend to state; by which they might be able to judge of the disposeable money in England belonging to the Company, at the end of each year; but upon enquiry, it does not appear that any such account has been kept in the books of the Company. Under this difficulty, it was necessary to collect these accounts from a variety of dispersed materials; and it employed the servants of the Company (whom your Committee found very intelligent and industrious in their several stations) more than six weeks, to prepare them in the manner in which your Committee now report them to the House. And your Committee find, by the following ten accounts, prepared by their direction, by Ranceford Tookey, Esquire, Deputy Accomptant to the said Company, that the produce of the Company's sales, and their other receipts, and their payments in England for the ten years, ending on the first day of March 1772, and what was owing by the Company at the end of each year, were as followeth: viz.

An ACCOUNT of Receipts of the East-India Company in England, in the year ending the

Your Committee have not inserted any debt on account of charges on merchandize; as they find, by the evidence of Mr. Tookey, Deputy Accomptant to the said Company, that the articles under that head are generally paid as they become due. In order to explain to the House what articles of expence are included under the head of Charges on Merchandize, your Committee have annexed to this report an account of the several particulars paid under this head in the course of this year; and they have annexed an account of extraordinary charges that fall under this head in the several subsequent years.

East-India House, 4th February, 1773.

Your Committee think proper to observe, that in the course of these ten years, the teas remaining in the Company's warehouses, belonging to the buyers, encreased from eight hundred ninety-two thousand and four hundred pounds to five million three hundred ninety-five thousand eight hundred and eighty pounds: These teas, though remaining in the warehouses, were paid for in course, and are therefore properly made a part of the produce of each year's sales; but as it is evident that these sales have exceeded the consumption, and as this quantity of surplus tea must necessarily operate to the diminution of future sales, a deduction must be made on these accounts in any estimate to be formed of the produce of future sales, on an average of the sales for the last ten years.

Your Committee having thus stated an account of the produce of the East-India Company's sales, and their other receipts, and of their payments in England for ten years, viz. from the 1st day of March 1762 to the 1st day of March 1772, and of their debts at the end of each year; they will now proceed to state an account of what has been received by the Company from the revenues arising from the territorial acquisitions lately obtained in the East-Indies, and of all other receipts at the several Presidencies, and at St. Helena, and, *per contra*, of all charges and disbursements there, and also of all the receipts of the Company in China, and of all disbursements there for ten years, distinguishing each year: And your Committee will state these accounts under such heads as may best enable the House to judge in what manner, and to what degree, the revenues arising from the said territorial acquisitions have contributed to the profits of the Company in England.

Your Committee have been obliged to make up these accounts to different periods, as the Company's Presidencies do not observe the same periods in forming the several annual accounts transmitted home: And as the Company's settlement of Bencoolen was not recovered till the 31st day of July 1761, nor completely re-established till the 1st day of May 1763, the accounts of the said settlement during the above-mentioned period are unavoidably broken accounts. And your Committee find, by the six following accounts, prepared, by their direction, by John Hoole, Esquire, Auditor of Indian accounts to the said Company, that the receipts and disbursements of the said Company, at their several Presidencies at St. Helena and in China, for the ten years stated in each account, were as followeth; viz.

year ending the 1st day of March 1772, and of what was owing by the Company in England of March 1772.

Your Committee find, by the evidence of Mr. Hoole, that part of the sum of £.1,686,606, being the total of the third column of receipts in the above account, to the amount of £.831,431, appears to have been received for military services, in consequence of several treaties and agreements entered into at different times with Shah Allum, the Nabobs Cossim Ally Cawn, Jaffier Ally Cawn, Nezim O Dowlah and Sujah Dowlah, by which they severally engaged to pay certain sums towards defraying military expences, and that another part of the said sum, to the amount of £.99,070, was received of Cossim Ally Cawn, being the balance unpaid of the restitution for losses sustained by the Company and other sufferers, by the capture of Calcutta in 1756; and that another part of the said sum, to the amount of £.46,721, was received of Cossim Ally Cawn, on account of advances made by the Company for the maintenance of the old Nabob, Meer Jaffier Ally Cawn; and that another part of the said sum, to the amount of £.407,324, was received of Jaffier Ally Cawn, as a compensation for losses sustained in the war with Cossim Ally Cawn in 1763, and on other accounts; and that another part of the said sum, to the amount of £.34,492, was received of Cossim Ally Cawn and Jaffier Ally Cawn, on account of a donation agreed to be paid by the Nabob Cossim Ally Cawn, towards defraying the expences of the siege of Pondicherry; and that another part of the said sum, to the amount of £.117,450, was received of Nezim O Dowlah on loans; and that another part of the said sum, to the amount of £.92,408, is the amount of the deposits paid into the Treasury at Calcutta by order of the Mayor's Court, and by others; and that another part of the said sum, to the amount of £.3,807, was received as repayment of overcharges for works performed; and that another part of the said sum, to the amount of £.9,553, was received of the Dutch and French Companies for saltpetre; and that another part of the said sum, to the amount of £.22,572, was received of several officers of ships for certificates in the nature of bills on the Court of Directors; and that the remainder of the said sum, amounting to £.21,778, was received of several persons on sundry accounts.

By the foregoing accounts it appears how much of the revenues collected at each presidency have been applied to defray the civil and military charges of such presidency; how much of them have been remitted to other presidencies, and to China; and what balance remained, after defraying these expences, to be applied to the purchase of the Company's investments.—It was impossible for your Committee to carry this investigation any further; for it appeared to your Committee, from the evidence of Mr. Hoole, that in the books transmitted from the several presidencies, no distinct account is kept of what cash is issued to their several subordinate factories, for the purposes of commerce only.—Before the Company was possessed of any territorial acquisitions, the charges of their several presidencies were defrayed out of small revenues then collected at each settlement, or out of the profits of their trade: these charges were at that time such only as were necessary for the purposes of their trade, and were very small, compared with those which their present situation requires.—To enable the House to judge what the amount of them were, and how much of the present charges is to be imputed to the alteration which has happened in the Company's affairs, your Committee ordered an account to be laid before them of the civil and military charges of the Company at their several settlements for five years, from 1729 to 1734; and they find that they amounted on an average in each of those years to £.169,944, according to the accounts hereunto annexed.—And your Committee further ordered an account of the said charges to be laid before them for five years immediately preceding 1756, and they find that they amounted in each of those years on an average to £ 315,446, as appears by the accounts hereunto annexed.

Your Committee find also, that several articles of expence which ought to be charged to the account of the territorial acquisitions, are involved in the expences incident to the commerce of the Company, and to the general management of their affairs at home:—Thus, under the article of charges of merchandize is included the charge of raising recruits, which, on an average for the last ten years, amounted to £.17,505; and under the article of freight is included the charge of transporting these recruits to the Company's settlements, which on an average of the ten last years, amounted to £24,026.—There are, besides, several smaller charges which ought to be placed to the account of territorial acquisitions, but are so blended with other expences under almost every head, that it is impossible to separate them with any accuracy. Under the many difficulties in which this part of their inquiry is involved, your Committee can state only such materials as will enable the House to form a general judgment upon this subject; and as they conceive it will contribute to throw further light upon it, if they enable the House to compare the profits of the Company, before they were possessed of the territorial acquisitions lately obtained in the East-Indies, with what their profits are at present, your Committee will endeavour to shew what the profits of the Company during the first of these periods were; and as the profits of the Company were then either divided among the Proprietors of their stock, or made an addition to their capital, your Committee will state an account to shew what the dividends of the Company have been from the year 1708, when the union of the two companies was compleated, to the year 1756, being the year before the Company became possessed of the said territorial acquisitions; and they will also shew to what amount the capital of the Company encreased during that period:—And to shew the increase of the Company's capital, they will state the balance of the Company's annual accounts, from the year 1732, being the year in which such account was first taken, to the year 1756; and they will, at the same time, shew the rate of interest paid by Government to the Company in each year, on the sums lent by them to the Public.

		Christmas 1785 to Lady Day	

From the foregoing table it appears that the Company divided, from Christmas 1708 to Midsummer 1756, the sum of £.12,457,476. being, upon an average, £.262,262. for each year of the forty-seven years and an half, for which this table is made, or about £.8. 4. *per cent. per annum*, on £3,194,080. being the capital upon which the Company now divide:—And it further appears from the said table, that at the end of the said period there was a balance on the Company's capital, in favour of the Company, to the amount of £382,078. according to their own state of it in their annual account.—But your Committee think proper to observe, that in the year 1733 the Company added the sum of £.200,000. to the credit side of the annual account of that year, being the second of their annual accounts; which sum of £.200,000. they had paid to the Public in the year 1730, for the prolongation of their right to an exclusive trade to the East Indies, and for the perpetuity of their corporate capacity; and at the same time, the Company further added to the credit side of the said annual account the sum of £.155,000. in consideration of an abatement of one *per cent. per annum* interest, for five years and an half, from the 29th day of September 1730, on £.3,200,000. then owing to them by the public, to which abatement they had consented, for the purposes and advantages before mentioned: and these sums of £.200,000, and £.155,000. the Company continued to write off, in certain proportions, from the annual account of each of the subsequent years, so that there remained in the annual account of 1756, under this head, the sum of £.105,000.—To explain this transaction more fully, your Committee have annexed to this report the minute of the General Court, of the 22d day of June 1733, relating thereto.

In order to shew, in another point of view, the alterations that have happened in the Company's commerce since they became possessed of territorial acquisitions, and to throw further light on the advantages, which the public as well as the Company have derived from these acquisitions, your Committee will state one other account, which will give the House a general view of the Company's outfits, whether in merchandize for sale, or in stores for the use of their settlements, or in bullion, or in lieu of these, by bills of exchange on the Court of Directors, compared with the returns of the Company, as manifested in their sales, from 1732 to the present time.

An ACCOUNT of what the *East India Company* have paid for Goods, and Stores, and Bullion, exported, and Bills of Exchange; also the amount of their sales (Discount deducted) including Saltpetre delivered the Honourable Board of Ordnance, from the 1st of *March* 1732 to the 1st of *March* 1772.

Your

Your Committee having thus laid before the House all the information they have been able to procure, in order to shew what the profits of the Company have been, they will conclude by reporting the several acts of parliament, charters, treaties, and grants, that relate to the trade of the Company, and to the territorial acquisitions, from whence these profits are derived.—And your Committee find, that the right of the Company to their exclusive trade, and the powers given them, and regulations made, for the purpose of carrying on the same, are established by several acts of parliament, passed in the 9th and 10th year of King William the Third, 6th and 10th of Queen Anne, 5th and 7th of King George the First; 3d, 5th, 9th, 13th, 17th, 20th, 23d, 25th, and 27th of King George the Second; in the 1st, 7th, 9th, 10th, and 12th of His present Majesty; and by several charters granted to the said Company by their Majesties King William the Third, Queen Anne, King George the First, King George the Second, and His present Majesty; which charters your Committee find, upon an inspection of the Journals of the House, were laid before the House on the 16th of March 1767.—And your Committee find, that in one of the aforesaid acts, passed in the third year of his late Majesty King George the Second, it is enacted, That notwithstanding the redemption by Parliament of the capital stock of the said Company, and of the annuity payable in respect thereof, the said Company shall be and continue to be a body politic and corporate, in deed and in name, by the name of the United Company of Merchants trading to the East Indies, and by that name shall have perpetual succession.—And your Committee find, that in another of the said acts, passed in the 17th year of his said late Majesty, it is enacted, That the said Company shall enjoy the sole trade to the East Indies, and all places between the Cape of Good Hope and the Streights of Magellan, provided that upon three years notice by Parliament after 25th March 1780, and repayment of the Company's capital, and all arrears of annuity payable in respect thereof, the right of the said Company to the sole trade to the East Indies, and places aforesaid shall cease.—And in the said act it is further enacted, That nothing in the before mentioned Proviso, or in any other act, or in any charter, shall extend, or be construed to extend, to determine the corporation of the said Company, or to hinder, prevent, or exclude them from carrying on, at all times, after such determination of exclusive trade, a free trade into and from the East Indies, and parts aforesaid, with all or any part of their joint stock in trade, goods, merchandize, estate, and effects, in common with other his Majesty's subjects trading into or from those parts.

And your Committee find, that the revenues stated in the first column of the accounts of receipts and disbursements at the Company's Presidencies at Bengal, Fort St. George, and Bombay, were possessed by the said Company before the year 1757; and that the same were levied either in the nature of consular duties upon goods imported and exported, or by virtue of ancient Firmaunds from the Mogul and Princes of the Country, or by virtue of the Company's right derived from the Crown to the island of Bombay.

And your Committee find, that the revenues stated in the second column of the aforesaid accounts of receipts and disbursements, are part of the territorial acquisitions lately obtained in the East Indies.

And your Committee find, upon an inspection of the Journals of this House, that upon the 9th day of December 1766, the House ordered to be laid before them, copies of all treaties with, and grants from, any of the country powers in India, from the year 1756 to the year 1766, both years inclusive, together with all letters or extracts of letters or correspondence between the East India Company and their officers or servants in India relative thereto, which were presented to the House upon the 20th day of January following; and that upon the 19th day of January 1769 the House ordered to be laid before them, copies of all treaties made with, and grants received from, any of the country powers in India, by the East India Company, subsequent to those which were laid before the House in the year 1767, together with all letters and extracts of letters or correspondence between the East India Company and their servants relative thereto; which papers were presented to the House upon the 14th day of February following.

And your Committee have annexed to this report copies of all treaties made with, and grants received from, any of the country powers in India, by the East India Company, subsequent to those presented to the House upon the said 14th day of February 1769, together with all letters, and extracts of letters or correspondence, between the East India Company and their servants relative thereto.

And lastly, your Committee find, that by one of the before mentioned acts, passed in the 9th year of His present Majesty, it is enacted and declared, That all the territorial acquisitions and revenues lately obtained in the East Indies, shall remain in possession of the said Company and their successors, during the term of five years, to be computed from the 1st day of February 1769.

Your Committee having thus reported what they find material in the accounts and evidence laid before them, with respect to the profits which the Company derive from their commerce, or from the territorial acquisitions lately obtained in the East Indies, they are now proceeding, in pursuance of the order of the House, to enquire further into the situation of the Company's affairs; and particularly how far the same may have been affected by the management of the Company or their servants; and they will report from time to time, what they find material with respect to the several objects that fall under this extensive head of enquiry.

Your

Your Committee having thus laid before the House all the information they have been able to procure, in order to shew what the profits of the Company have been, they will conclude by reporting the several acts of parliament, charters, treaties, and grants, that relate to the trade of the Company, and to the territorial acquisitions, from whence these profits are derived.— And your Committee find, that the right of the Company to their exclusive trade, and the powers given them, and regulations made, for the purpose of carrying on the same, are established by several acts of parliament, passed in the 9th and 10th year of King William the Third, 6th and 10th of Queen Anne, 5th and 7th of King George the First; 3d, 5th, 9th, 13th, 17th, 20th, 23d, 25th, and 27th of King George the Second; in the 1st, 7th, 9th, 10th, and 12th of His present Majesty; and by several charters granted to the said Company by their Majesties King William the Third, Queen Anne, King George the First, King George the Second, and His present Majesty; which charters your Committee find, upon an inspection of the Journals of the House, were laid before the House on the 16th of March 1767.— And your Committee find, that in one of the aforesaid acts, passed in the third year of his late Majesty King George the Second, it is enacted, That notwithstanding the redemption by Parliament of the capital stock of the said Company, and of the annuity payable in respect thereof, the said Company shall be and continue to be a body politic and corporate, in deed and in name, by the name of the United Company of Merchants trading to the East Indies, and by that name shall have perpetual succession.— And your Committee find, that in another of the said acts, passed in the 17th year of his said late Majesty, it is enacted, That the said Company shall enjoy the sole trade to the East Indies, and all places between the Cape of Good Hope and the Straights of Magellan, provided that upon three years notice by Parliament after 25th March 1780, and repayment of the Company's capital, and all arrears of annuity payable in respect thereof, the right of the said Company to the sole trade to the East Indies, and places aforesaid shall cease.— And in the said act it is further enacted, That nothing in the before mentioned Proviso, or in any other act, or in any charter, shall extend, or be construed to extend, to determine the corporation of the said Company, or to hinder, prevent, or exclude them from carrying on, at all times, after such determination of exclusive trade, a free trade into and from the East Indies, and parts aforesaid, with all or any part of their joint stock in trade, goods, merchandize, estate, and effects, in common with other his Majesty's subjects trading into or from those parts.

And your Committee find, that the revenues stated in the first column of the accounts of receipts and disbursements at the Company's Presidencies at Bengal, Fort St. George, and Bombay, were possessed by the said Company before the year 1757; and that the same were levied either in the nature of consular duties upon goods imported and exported, or by virtue of ancient Firmaunds from the Mogul and Princes of the Country, or by virtue of the Company's right derived from the Crown to the island of Bombay.

And your Committee find, that the revenues stated in the second column of the aforesaid accounts of receipts and disbursements, are part of the territorial acquisitions lately obtained in the East Indies.

And your Committee find, upon an inspection of the Journals of this House, that upon the 9th day of December 1766, the House ordered to be laid before them, copies of all treaties with, and grants from, any of the country powers in India, from the year 1756 to the year 1766, both years inclusive, together with all letters or extracts of letters or correspondence between the East India Company and their officers or servants in India relative thereto, which were presented to the House upon the 20th day of January following; and that upon the 19th day of January 1769 the House ordered to be laid before them, copies of all treaties made with, and grants received from, any of the country powers in India, by the East India Company, subsequent to those which were laid before the House in the year 1767, together with all letters and extracts of letters or correspondence between the East India Company and their servants relative thereto; which papers were presented to the House upon the 14th day of February following.

And your Committee have annexed to this report copies of all treaties made with, and grants received from, any of the country powers in India, by the East India Company, subsequent to those presented to the House upon the said 14th day of February 1769, together with all letters, and extracts of letters or correspondence, between the East India Company and their servants relative thereto.

And lastly, your Committee find, that by one of the before mentioned acts, passed in the 9th year of His present Majesty, it is enacted and declared, That all the territorial acquisitions and revenues lately obtained in the East Indies, shall remain in possession of the said Company and their successors, during the term of five years, to be computed from the 1st day of February 1769.

Your Committee having thus reported what they find material in the accounts and evidence laid before them, with respect to the profits which the Company derive from their commerce, or from the territorial acquisitions lately obtained in the East Indies, they are now proceeding, in pursuance of the order of the House, to enquire further into the situation of the Company's affairs; and particularly how far the same may have been affected by the management of the Company or their servants; and they will report from time to time, what they find material with respect to the several objects that fall under this extensive head of enquiry.

At a General Court of the United Company of Merchants of England trading to the East Indies, held on Friday the 22d June 1733.

THE chairman acquainted the court that the reason of advertising this quarterly court to be also on special affairs, was to inform them, that the court of directors having had under consideration the present state of the company's affairs at home and abroad, do find that in the estimate made the last Year, the account was debited with the sum of £. 200,000, which was paid the government for the prolongation of their right to an exclusive trade for 30 Years, and for the perpetuity of their corporate capacity, which disabled them from continuing the usual dividend out of the profits arising by their trade, without breaking into the capital; and therefore they proposed a reduction of the former dividend from eight to six *per Cent*.

But having maturely deliberated upon the said estimate, as well as the present saving by the reduction of interest on the bonds, they (as well as many of the adventurers besides) do think that not only this sum of £. 200,000, but also the one *per Cent*. Abatement out of the annual funds for five years and a half, which amounts to £. 155,000, should be esteemed (as in reality it is) a fine paid for the said prolongation and perpetuity; and that a distinct account thereof should be kept in the Company's books; and that, towards the discharge of that account, there shall annually be paid £. 10,000 out of the profits of trade, until the same is completed.

If this court approves of, and orders this method of stating the account, the Directors are of opinion, that this Midsummer dividend may be three and a half *per Cent*.

A motion was then made, and the question being put, it was unanimously

Resolved, that a distinct account be kept on the Company's books of the said £. 200,000 and £. 155,000 accordingly; and that towards the discharge of that account, there shall annually be wrote off £. 10,000 out of the profits of trade, until the same is completed.

Another motion being made, it was upon the question

Resolved, *Nemine contradicente*, that the half year's dividend due at Midsummer next, be £. 3. 10. *per Cent*.

Extract of the General Letter from Bengal, dated the 30th March 1767.

THE Treaty entered into with the nabob Syf O Dowla and us, on his accession to the subahship in May last, after the death of his brother, now makes a number in the packet; it is executed by all the members of the board, but lord Clive and general Carnac, who were then up the country.

Articles of a Treaty and Agreement concluded between the Governor and Council of Fort William, on the Part of the English East-India-Company, and the nabob Syef ul Dowla.

On the Part of the Company.

We the governor and council, do engage to secure to the nabob Syef ul Dowla, the subahdarree of the provinces of Bengal, Bahar, and Orixia, and to support him therein with the Company's forces against all his enemies.

On the Part of the Nabob.

Ist.

The Treaty which my farther formerly concluded with the Company upon his first accession to the nizamat, engaging to regard the honour and reputation of the Company and of the governor

governor and council as his own, and that entered into with my brother, Nabob Nazim ul Dowla; the same treaties, as far as is consistent with the true spirit, intent, and meaning thereof, I do hereby ratify and confirm.

2d.

The King has been graciously pleased to grant unto the English East-India-Company, the dewannahship of Bengal, Bahar, and Orixa, as a free gift for ever; and I having an entire Confidence in them and in their servants settled in this country, that nothing whatever be proposed or carried into execution by them derogating from my honour, dignity, interest, and the good of my country; do therefore for the better conducting the affairs of the subah-darree, and promoting my honour and interest and that of the Company in the best manner, agree that the protecting the provinces of Bengal, Bahar, and Orixa, and the force sufficient for that purpose, be entirely left to their direction and good management, in consideration of their paying the King Shaw Allum, by monthly payments, as by Treaty agreed on, the sum of Rupees 2,16,666. 10. 9. and to me Syef ul Dowla, the annual stipend of Rupees 41,86,131. 9; viz. the sum of Rupees 17,78,854. 1. for my house, servants, and other expences indispensably necessary; and the remaining sum of 24,07,277. 8. for the support of such Sepoys, Peons, and Burgundassies, as may be thought proper for my aswary only; but on no account ever to exceed that amount.

3d.

The Nabob Minauh Dowla, who was at the instance of the governor and gentlemen of the council, appointed naib of the provinces, and invested with the management of affairs, in conjunction with Mah Rajah Doolubram and Juggat Seat, shall continue in the same post and with the same authority; and having a perfect confidence in him, I moreover agree to let him have the disbursing of the above sum of 24,07,277. 8. for the purposes above mentioned.

This agreement by the blessing of God I hope will be inviolably observed as long as the English Company's Factories continue in Bengal. Dated this 19th day of May, in the year of our Lord 1766.

Extract of the Fort Saint George separate Letter, dated the 1st March 1768.

ON the 18th December, the subah separated himself from Hyder Ally, and retired with his army to Ponganoor, and sent some of his chiefs to have an interview with Colonel Smith; but as he found nothing could be done unless he sent Ruccun ud Dowlah hither, he at last consented to it, and Ruccun arrived here the 9th February, and we have the satisfaction of acquainting your Honours that a Treaty of Peace has been concluded between the Company, the Subah, and the Nabob, which has been executed by us and the Nabob; and Mr. Ardley has been deputy to get it ratified and exchanged by the Subah.

A Treaty of perpetual friendship and alliance, made and concluded at Fort Saint George, between the honourable united Company of merchants of England trading to the East-Indies, in conjunction with the Nabob Wolau Jau Omdetul Mulk Ummeer-ul Hind Serajeih Dowla Anneverdeen Caun Behaudre Munfoor Jung Sippha Sardar of the Carnatick, Peupn Ghautle, on the one part; and the great Nabob high in station, Ausuph Jau Nyain ul Mulk Meer Nyain Ally Cawn Behaudre Pultah Jung Sippha Sardar, soubah of the Deckan, on the other part; by the honourable Charles Bouchier, Esquire, president and governor of Fort Saint George, and the Council thereof, on behalf of the said English East-India-Company; the Nabob Wolau Jau Omdetul Mulk, on behalf of himself, as Nabob of the Carnatick; and the Nabob Ruccun ud Dowla Duan, invested with full powers on behalf of the said Nabob Ausuph Jau Nyain ul Mulk, his Heirs and successors, as soubah of the Deckan. Done on the 23d day of February, in the year 1768 of the Christian Æra, and on the 4th of the moon Shevail, in the year of the Hegyra 1181.

The Treaty.

Whereas on the 12th of November, in the year of the Christian Æra 1766, or on the 9th of the moon Gomandussanny in the year of the Hegyra 1180, a Treaty was concluded at Hydrabad, by and between general John Caillaud, invested with full powers on behalf of the English East-India Company, and the Nabob Ausuph Jan Nyain ul Mulk, &c. on behalf of himself, as soubah of the Deckan, with a design to establish an honourable and lasting friendship and Alliance between the two contracting powers: and whereas some misunderstandings

standings have since arisen, which have perverted the intent of the said Treaty, and kindled up the flames of war—Now be it known to the whole world, that the before mentioned Nabob Aufuph Jau, and the English Company, with the Nabob Wolau Jau, have entered into another Treaty of the strictest friendship and alliance, on the following conditions.

Article 1st.

The exalted and illustrious emperor of Idostan, Shaw Allum Padteha, having out of his gracious favour, and in consideration of the attachment and services of the English East-India Company, given and granted to them for ever by way of ineam or free gift, the five circars of Mustaphanagar, Rajahmundry, Chicacole, and Murtazanagar, or Condavir, by his royal phirmaund, dated the 12th of August 1765, or on the 24th of the moon Supheer, in the 6th Year of his Reign; and the Nabob Aufuph Jau Nyain ul Mulk, as subah of the Deckan, having by the 2d and 3d articles of the aforementioned Treaty ceded and surrendered by Saneds, under his hand and seal, to the English East-India Company for ever the aforementioned five circars; it is now further acknowledged and agreed by the said Aufuph Jau Nyain ul Mulk, soubah of the Deckan, that the said Company shall enjoy and hold for ever, as their right and property, the said five circars, on the terms hereafter mentioned.

Article 2d.

By the aforementioned Treaty of Hydrabad it was stipulated, that the Nabob Aufuph Jau, having given the circar of Mortazanagar as a jagheer to his brother, the Nabob Ummeer-ul Omrah Sujah ul Mulk Behaudre Bagalet Jung, the Company should not take possession of the said circar, till after the death of Bagalet Jung, or till he broke the friendship with the said Company, by raising disturbances in the country of Nigampatam or the Carnatic; and tho' the Company might justly claim a right to take possession of the said circar, from the late conduct of Bagalet Jung; yet in consideration of their friendship for Aufuph Jau and his family; and that they may not distress his affairs by obliging him to provide his brother Bagalet Jung with another Jagheer, the Company do agree and consent that Bagalet Jung still hold the circar of Mortazanagar on the aforesaid conditions, or till it be the pleasure of Aufuph Jau, that the Company should take possession thereof; provided that the said Bagalet Jung returns immediately to his own country of Adony, and neither keeps with, nor receives from, Hyde Maigne, any vackeel, a correspondence, but lives in peace and harmony with the English Company and the Nabob Wolau Jau, and gives no protection or assistance whatever to the said Maigne or any of his people, nor any other enemies of the Company or the Nabob Wolau Jau: But if this article shall at any time be infringed, the Company shall be at liberty, by virtue of this Treaty, to take possession of and keep the circar of Mortazanagar in the same manner as the other four; and the Nabob Aufuph Jau engages to assist them therein with his troops, if necessary.

Article 3d.

The fort of Condapilly, with its Jagheer, shall for ever hereafter remain in possession of the English Company, and be garisoned with their troops under their own officers only, notwithstanding any thing to the contrary stipulated in the 12th article of the Treaty of Hydrabad.

Article 4th.

Narraindoo, one of the zemindars of the circars of Chicacole, having lately raised disturbances in the Itchapore country, and refused (as he alledges in conformity to the nabob Aufuph Jau's orders) to pay his rents or obedience to the Company; the nabob Aufuph Jau agrees on the signing and exchange of the present Treaty, to write letters not only to Narraindoo, but to all the zemindars in the circar of Ellour, Mustaphanagar, Rajahmundry, and Chicacole, acquainting them, that they are in future to regard the English Company as their sovereign, and to pay their rents and obedience to the said Company or their deputies, without raising any troubles or disturbances: The Nabob Aufuph Jau further agrees, that he will not in future encourage or protect in raising troubles or disobedience, any zemindars, renter, or servants, of the English Company, or the Nabob Wolau Jau, who on their parts engage the same to his highness Aufuph Jau.

Article 5th.

It has been the constant desire and endeavours of the English Company and the Nabob Wolau Jau, to preserve their possessions in peace, and to live on terms of friendship with the soubah of the Deckan: They still desire to do the same, and though the operations of War have lately obliged the Company to send their troops towards Hydrabad, and to take possession of the circars of Commamet and Worangole, yet as a proof of their friendship for the Nabob Aufuph Jau, &c. soubah of the Deckan, on the signing and exchange of this Treaty, the Company's troops shall be recalled to the fort of Commamet, from whence they shall also retire into their own circars, so soon as the soubah with his army has crossed the Kistnah leaving the fort of Commamet to the soubah's deputy; and as a farther proof of the Company's sincere desire to preserve a friendship with the soubah of the Deckan, they agree

to bury in oblivion what is past, and to pay him annually for the space of 6 years, to be computed from the 1st of January 1768, or the 10th of the moon Shibaun, in the year of the Hegyra 1181, the sum of two lacks of Arcot Rupees at Madras or Masulipatam; that is to say, one lack on the 31st March, and also one lack on the 31st October, or two lacks every year, and one lack more at each of these periods, whenever the circar of Condavir is put into the Company's possession: The Company moreover promise, that if they peaceably possess the circars, during the aforesaid term of 6 years, and the soubah gives them no trouble, they will pay annually from the 1st of January 1774, the sum of five lacks, in two equal payments as before expressed, or of seven lacks, if Condavir be then in their possession: But in case the soubah or the Morattas by the Instigation should invade the circars or Carnatic, or they or any other power should conquer the circars from the English Company, the payment of the said sums shall be suspended till peace, and the Circars are restored to the Company.

Article 6th.

It was stipulated in the former Treaty made at Hydrabad, that the Company and the soubah should mutually assist each other with their troops when required, and their own affairs would permit; but it being apprehended at present, that such an agreement may subject both parties to difficulties, and that misunderstandings may arise on that account; it is now agreed only, that a mutual peace, confidence, and friendship, shall subsist for ever between the English Company, his highness Ausuph Jau, and the Nabob Wolau Jau, the enemies of either shall be regarded as the enemies of the other two powers, and the friends of either be treated as the friends of all; and in case any troubles should arise, or any enemies invade the countries under the government of either of the contracting parties, the other two shall give no countenance or assistance to such enemies or invaders: The Company and the Nabob Wolau Jau, willing however to shew their voluntary attachment to the soubah, will always be ready to send two battalions of Sepoys, and six pieces of artillery manned by Europeans, whenever the soubah shall require them, and the situation of their affairs will allow of such a body of troops to march into the Deckan, provided the soubah pays the expence during the time the said troops are employed on his service.

Article 7th.

The exalted and illustrious emperor Shaw Allum, having been pleased, out of his great favour and high esteem for the Nabob Wolau Jau, to give and to grant to him and his eldest son Meyen ul Mulk Omdatull Omrah and their heirs for ever, the government of the Carnatic Payen Ghaut, and the countries dependant thereon, by his royal Phirmaund, bearing date the 26th August 1765, on the 27th of the moon Zupur, in the 6th year of the said Emperor's reign; and the Nabob Ausuph Jau Nyain ul Mulk, &c. having also, out of his affection and regard for the said Nabob Wolau Jau, released him, his son Meyen ul Mulk, and their heirs in succession for ever, from all dependance on the Deckan, and given him a full discharge of all demands, past, present, and to come, on the said Carnatic Payen Ghaut, by a saned under his hand and seal, dated the 12th of November 1766, in consideration of the said Nabob Wolau Jau having paid the soubah five lacks of rupees: It is now agreed and acknowledged by the said Ausuph Jau Nyain ul Mulk, that the said Nabob Wolau Jau and after him his son Meyen ul Mulk, and their heirs in succession, shall enjoy for ever as an ullumgau or free gift, the government of the Carnatic Payen Ghaut, on the fullest and amplest manner; the said Nabob Ausuph Jau promising and engaging not to hold or keep up any kind of correspondence with any person or persons in the said Carnatic Payen Ghatle, or in the circars, before and now ceded to the English Company, except the said Nabob Wolau Jau or the said English Company, by the means of their president and council of Madras, who on their part, in conjunction with the said Nabob Wolau Jau, engage likewise not to hold or maintain any Correspondence with any person or persons in the Deckan, except the Nabob Ausuph Jau, his duan, and the securities, whose names are hereunto subscribed.

Article 8th.

The Nabob Ausuph Jau, out of his great regard and affection, and from other considerations, having been pleased to grant and confer on the Nabob Wolau Jau, and his eldest son Meyen ul Mulk Omdatull Omrah, several saneds; viz.

An Ultumgau saned for the whole of the Carnatic.

An Ultumgau saned for the whole of the Purgannah of Imungundela, with the gudda of Ghunpoora.

An Ultumgau saned for the whole of the villages of Cathasera, &c.

An Ultumgau saned for the Killedary of the fort of Colour.

An Ultumgau saned for the whole of the district of Sonedawpe.

And full and ample saned, containing a discharge for all demands, past, present, and future, on account of the Carnatic, &c. It is hereby agreed, that all and every one of these saneds shall

be regarded equally binding with any other article of the Treaty, and be as duly observed by the Nabob Aufuph Jau, as if entered here at full length.

Article 9th.

Hyder Naigui having for some years past usurped the government of the Myfore country, and given great disturbances to his neighbours, by attacking and taking from many of them their possessions, and having also lately invaded, and laid waste with fire and sword, the possessions of the English Company, and the Nabob Wolau Jau in the Carnatic, it is certainly necessary, for their peace, and for the general benefit of all the neighbouring powers, that the said Naigui should be punished and reduced so that he may not hereafter have the power to give any person further trouble: to this end the Nabob Aufuph Jau hereby declares, and makes known to all the world, that he regards the said Naigui as a rebel and usurper, and as such divests him of, and revokes from him, all senads, honours, and distinctions conferred by himself or any other soubah of the Deckan, because the said Naigui has deceived the Nabob Aufuph Jau, broken his agreement, and rendered himself unworthy of all farther countenance and favours.

Article 10th.

That the English Company may hereafter carry on their trade peaceably on this coast of Coromandel, and also on the coast of Malabar; and that they, with the Nabob Wolau Jau, may hold the Carnatic and their other possessions in peace, it appears necessary that the countries of Carnatic Balagatte, belonging to the soubahdary of Viziapour, now or lately possessed by Hyder Naigui, should be under the management and protection of those who will do justice and pay obedience to the high commands from court.—It is therefore agreed by the Nabob Aufuph Jau, That he shall relinquish to the English Company all his right to the Dewanny of the said Carnatic Bagalat belonging to the soubahdary of Viziapour, and that the Company shall present an arzet, or petition, to the royal presence, to obtain from the Emperor Shaw Allum a Phirmaund confirming and approving their right thereto; but that the Nabob Aufuph Jau, as soubah of the Deckan, may not lose his dignity, or the revenue arising from the said countries, the English Company agree to pay him annually, out of the Dewanny collection, from the time they are in possession thereof, the sum of seven lacks of Arcot rupees, including Durbar charges, being the sum usually paid heretofore, in two equal payments, at the space of six months from each other; provided that the said Aufuph Jau, soubah of the Deckan, assists the said Company, and the Nabob Wolau Jau, in punishing Hyder Naigui; and neither receives from, or sends either vaquils or letters to him.

Article 11th.

As the English Company do not intend to deprive the Morrattas of their chout, any more than the soubah of his pishah, which used to be paid from the Carnatic Ballagatte, belonging to the soubahdary of Viziapour, now or lately possessed by Hyder Naigui, it is hereby agreed, and the Company willingly promise, to pay the Morrattas, regularly and annually, without trouble, for the whole chout, as settled in former times, from the time the said countries shall be under the Company's protection, as duan; provided however, that the Morrattas guarantee to the Company the peaceable possession of the said Dewanny: To this end the Nabob Aufuph Jau, promises to use his best endeavours, jointly with the English, and the Nabob Wolau Jau, to settle with the Morrattas concerning the chout of the said countries, how and where it is to be paid, so that there may be no disturbances hereafter on that account, between any of the contracting parties, or the Morrattas.

Article 12th.

All the foregoing articles are sincerely agreed to by the subscribing parties, who resolve faithfully to execute and abide by the same, so that a firm and lasting friendship may mutually subsist between them; and while such an alliance subsists, what power will dare to disturb the possessions of either party?—The English Company and the Nabob Wolau Jau will endeavour on all occasions, to shew their friendship and attachment to the Nabob Aufuph Jau Nyain ul Mulk, as soubah of the Decan, and look on the support of the government as the support of their own; in short there will be no manner of difference in interest between them.

In witness and confirmation of all the above articles, and every part of the foregoing Treaty, we, whose names are under written, have interchangeably subscribed to, and sealed, three instruments of the tenor and date, viz. the president and council of Fort St. George on the behalf of the English East India Company, at that place, this 20th day of February, in the year of the christian Era, 1768; the Nabob Aufuph Jau, soubah of the Decan, at his camp near Pillere, on the 22d day of the moon Shevail, in the year of the Hegyra 1181; and the

Extract of the Select Committee's Letter from Bengal, dated 6th January 1769, received per Queen.

IT is with great pleasure we embrace the opportunity which the present conveyance affords us, to inform you, that our deputies to his Majesty and the nabob Sujah ul Doula have hitherto met with every desired success in the course of their negotiations: his excellency gave them the meeting at Benares, where many days passed in conferences on the subject of the late jealousies subsisting between us; which at length happily terminated in the conclusion of a new Treaty with him on the 28th November. The steady measures adopted and pursued in thus bringing the nabob to an explanation, have not a little contributed to his ready acquiescence to the most essential parts of our just pretensions; and the tender regard which the gentlemen of the deputation have shewn for his honour in the reduction of his forces, at the same time that they have consulted the future security of these provinces, we flatter ourselves will meet with that approbation from you, which we have testified to them on the occasion; by the stipulated reduction of the nabob's forces he is still permitted to retain a number which will ever render him respectable among the powers of Hindostan, tho' in no degree sufficiently formidable to trouble the repose of these provinces. This we may hope will rather be productive of confidential regard on our part, than create in us future suspicions of the nabob's ambitious views; since it admits not a doubt, that he can now form no projects but what we shall have in our power to controul.

29th Novr. 1768.

Copy of the Treaty between the Deputation from the Governor and Council of Bengal and the Vizier Sujah ul Dowla.

Whereas unbecoming rumours have been propagated abroad, which tend to the interruption of the firm friendship, union, and confidence formerly established between his highness the nabob Sujah ul Dowlah, vizier of the empire, on one part, and the right honourable Robert lord Clive, and general John Carnac, in behalf of the deceased nabob Nudjim ul Dowlah, late subadar of Bengal, Bahar, and Orixia, and the English Company on the other part; Harry Verelst, esquire, president and governor of Fort William, and the council thereof, with a view to the removal of all causes of jealousy and disagreement, and the confirmation of a good disposition on both sides, have deputed John Cartier, colonel Richard Smith, and Claud Russell, three members of the council from Calcutta, personally to confer with his highness aforesaid: and whereas the aforesaid John Cartier, colonel Richard Smith, and Claud Russell, after effecting an interview with his highness aforesaid, have reason to be satisfied with his steady attachment to the English, they therefore, in behalf of his excellency the nabob Syf ul Dowlah, subadar of Bengal, Bahar, and Orixia, and the English Company, renew and confirm the former Treaty, letter by letter, and article by article; and his highness the nabob Sujah ul Dowlah aforesaid, doth likewise renew and confirm the said Treaty; and moreover, out of a pure desire effectually to eradicate all doubts and jealousies, to establish the present harmony on the most durable basis, and to confirm the former Treaty, doth consent and agree that the following words shall be inserted as an explanatory clause in the said Treaty. "It is by the advice and consent of the president and council aforesaid, agreed, that his highness shall not entertain a number of forces exceeding thirty-five thousand men, whether sepoys, cavalry, peons, artillery men, rocket men, or troops of any denomination whatever; of this number ten thousand are to be cavalry, ten battalions of sepoys, including subadars, jemidars, havildars, and all ranks of officers, not to exceed ten thousand men; the Nujib regiment consisting of five thousand men with matchlocks, to remain always in its present establishment; five hundred men for the artillery, and that number never to be exceeded; the remaining nine thousand five hundred men are to be irregulars, neither to be clothed, armed, or disciplined after the manner of the English sepoys or Nujib regiments; and his highness also engages to arm none of his forces, besides the ten thousand men mentioned in this Treaty, after the English manner, nor to train them in the discipline of the English troops. In consideration thereof, the said John Cartier, colonel Richard Smith, and Claud Russell, engage in behalf of his excellency the nabob Syf ul Dowlah and the English Company aforesaid, That whilst his highness Sujah ul Dowlah aforesaid, and his successors, shall abide by the articles of this Treaty, neither the present council of Fort William, nor any future council, shall hereafter introduce any new matter relative hereto, besides what has been formerly agreed to and is now concluded upon; and both parties shall consider this agreement as firm and binding: his highness aforesaid shall swear upon the Koran, John Cartier, colonel Richard Smith, and Claud Russell upon the Gospel, never to infringe the minutest part or meaning hereof, and to maintain it themselves, and to transmit it inviolable to their posterity."

(L. S.)

I promise to disband all the troops which I now entertain exceeding the number of thirty-thousand horse and foot, and to comply with all the articles stipulated in the Treaty, within the space of three months. Written the 19th of the month Rejib, the year of the Hejiry 1182 which answers to the 29th of November 1768.)

Azie presented to the King, December 20th, 1768.

The English serdars represent to your illustrious cognizance, That purely out of a desire to promote the happiness and satisfaction of your loyal breast, to testify their obedience to your commands, and their uniform attachment to the prosperity of your government, they have for these three years past kept a third part of their army stationed at Allahabad; during that period near eighty laaks of rupees have been expended, and the whole amount has been remitted in specie from the provinces of Bengal and Bahar, by which not a single rupee ever returns. Formerly those provinces received annually fresh supplies of silver from Surat, and from the importation of the different European nations, who from thence formed their investments in the produce of this country. But all those channels are now closed: the war on the coast also has required large remittances from Bengal, which have been paid in ready money to the amount of fifty laaks of rupees. The English serdars have frequently represented to your majesty their extreme desire of withdrawing their forces from Allahabad, since they do not wish to have any troops beyond the Caramnalla. Your majesty indeed has been pleased to declare, That the peace and tranquillity of the empire are solely preserved by the station of our brigade about your royal person; but in this distressful situation what is to be done? The province of Bengal is already so much exhausted that there scarcely remains a sufficiency of silver for the common currency, inasmuch that any further exportation of specie must be attended with an entire bankruptcy amongst the inhabitants, and inevitable ruin to the country: your servants hope therefore, that your majesty will be graciously pleased to take this matter into your most serious consideration: it is incumbent on them, as loyal servants and wellwishers, to represent with openness and truth that it is their earnest desire to recall their troops within the subahdarry of Bengal, and that in future it is absolutely impossible for them to defray the expences of the English army which now remains at Allahabad by your majesty's requisition, amounting annually to upwards of twenty laaks of rupees from the specie of Bengal and Bahar: in this case we request that your majesty, having well weighed these circumstances in your mind, will condescend to give your council and issue your royal commands concerning the measures to be pursued upon this important subject: your servants have represented what is necessary.

Translation of his Majesty's Answer to our Arzee.

Whereas our loyal servants the English serdars have represented to our sublime consideration, that the maintenance of the English army in our royal presence is a source of very burthen-some expence to them, and a constant drain of the specie of Bengal; and whereas there are certain districts on the opposite side of the Tumna, formerly dependent on the subah of Allahabad, but dismembered by the usurpations of rajah Hindaput, which if again brought under the subjection of our throne might be appropriated to the payment of the English army: We therefore call upon our faithful servants and wellwishers, the English serdars, to support our lawful claims to these districts, and out of our royal grace and favour consent that whilst the English army continues at Allahabad, the expences thereof shall be defrayed from the revenues of the abovementioned districts; and whatever sums remain after the payment of the English army, shall be reserved for our own royal use.

Extract of a general Letter from Fort St. George, dated the 27th June, 1769.

ABOUT six o'clock (the 29 March) in the evening, we received letters from Hydre addressed to the President and Mr. Du Pre, advising of his arrival at the Mount with a design of making peace, and desiring that Mr. Du Pre (for whom he had sent a cowle) might give him a meeting there for that purpose: it was thereupon resolved that Mr. Du Pre should go to him, and he accordingly set out the next morning early, and continued with him the whole day. On his return at night he gave us an account of his conference with Hydre Ally, which is entered on our proceedings, as well as every circumstance that passed relative to the negotiation, to the conclusion of the Treaty which was executed by us the 3d April in the evening; and Mr. Stracey who was deputed to get it ratified and exchanged on the part of Hydre Ally, returned with it executed by him the 4th in the morning: for a particular account of the many difficulties which occurred in settling the terms of the Treaty, we beg leave to refer your honours to our abovementioned proceedings, where the Treaty is entered, with such observations thereon as appeared necessary, in order to give you the clearest information of the several subjects. And that your honours may see clearly the motives and reasons which induced us to accede to the terms of the Treaty, we have thought it necessary to state them also in as clear and distinct a manner as possible on our consultations; and we flatter ourselves that on a perusal of them, your honours will approve of our conduct.

Azie

A Treaty of perpetual friendship and peace, made and concluded between the governor and council of Fort St. George, in behalf of the honourable English East India Company, for all their possessions and for the Carnatic Payen Ghaut on the one part, and the nabob Hyder Ally Cawn Behaudre for the country of Mysore, Hydr, Nagur, and his other possessions on the other part, on the following conditions.

Treaty.

Article 1st.

That all hostilities shall immediately cease on the conclusion of this Treaty, which is to be perpetual, or as long as the Company may exist—That peace and friendship shall take place between the contracting parties, (particularly including therein the rajah of Tanjore, the Malavar Ram rajah and Morari Row, who are friends and allies to the Carnatic Payen Gatte) also all others the friends and allies of the contracting parties, provided they do not become the aggressors against either of them; but if they are aggressors, they are not to be assisted by either party.

Article 2d.

That in case either of the contracting parties shall be attacked, they shall from their respective countries mutually assist each other to drive the enemy out—The pay of such assistance of troops, from one party to another, to be after the following rates; viz. To every soldier and horseman 15 rupees per month and every sepoy $7\frac{1}{2}$ rupees per month, the pay of the Sardars and Commandants to be as it shall be agreed on at the time.

Article 3d.

The presidency of Bombay, and all the factories and places which were before or are now under their government, are included in this Treaty of friendship; and the nabob Hyder Ally Cawn Behaudre engages, out of his friendship and regard to the Company, to grant to them the factories, privileges, and exemptions in trade, in the same manner as they before held them; moreover to release all the Sardars, Europeans, sepoys, &c. who may have been taken on that side, and this immediately on the arrival of a proper person from the governor and council of Bombay for that purpose; and also to settle the particulars of the privileges of trade and other matters relative to the Sandal wood and pepper, &c. articles of trade. And as there is now established between the contracting parties (the Company and the nabob Hyder Ally Cawn) a perpetual peace, there is no doubt but the presidency of Bombay will exchange with the said nabob a Treaty to the same purport as this, respecting the affairs of the said place, &c. and all the factories on that side in the course of this war; it is hereby agreed and stipulated, that they shall be mutually forgiven, and no claim or demand on any account made for them hereafter.

Article 4th.

The above nabob engages that all the officers, Europeans, and sepoys, belonging to the presidency of Madras, shall immediately be released on the arrival of a proper person at Bengalure to demand them; also shall all the Sardars and people belonging to the Carnatic Payen Ghaut, who may have been taken in this war, shall likewise be released; the English Company engaging on their side to release the people belonging to the said nabob, who may have been taken also in this war.

Article 5th.

The contracting parties mutually engage and agree, That the forts and places which may have been taken by either party from the other in this war, shall be mutually restored, except the fort of Caroor and its districts. And whereas the English Company have in the forts of Colar and Veneatighevy (exclusive of the former stores therein) many cannon, shot, powder, ball, and muskets, the nabob Hyder Ally Cawn engages that the said Company shall have permission to bring away the same without any let or molestation being given them therein; and as soon as they are withdrawn, the said forts shall immediately be evacuated, and restored to the said nabob.

In witness whereof the said contracting parties have interchangeable signed and sealed two instruments of the same tenor and date, viz. The said president and council on behalf of the English East India Company and the Carnatic Payen Ghaut, in Fort St. George, this 3d day of April, in the year of the Christian Era 1769. And the said nabob Hyder Ally Cawn Behaudre at his camp at Madavaram, the twenty-fifth day of the moon Zeckyd, in the year of Hegyra 1182.

Extract of the General Letter from Bengal, dated the 25th August 1770, received per Lapwing the 22d March 1771.

THE nabob Syf ul Dowla was, after a few days illness, carried off by the malignant small Pox on the 10th March last, about three o'clock in the afternoon. The resident at the Durbar immediately informed us of it, and we ordered Minute Guns to be fired and every other ceremony to be solemnized as usual on such occasions.

As

As the right of succession had been established by you in the present line of the family, we sent immediate directions for setting the late nabob's brother Mahbaurek ul Dowla on the musnud; we proclaimed him in Calcutta, and we directed Messieurs Becher and Aldersey to attend the ceremony at the city, and to assure his excellency of our support and attachment.

The allowances received by his brother were, according to your orders of the 16th March 1768, continued to the new nabob.

We likewise drew out a new Treaty to the same purport as that entered into by the late nabob, and after it was executed we delivered one copy to his excellency, another was put into the hands of the ministers, a third is deposited amongst our archives, and the fourth we send you in this packet.

Articles of a Treaty and agreement between the governor and council of Fort William, on the part of the English East India Company, and the nabob Mebarek ul Dowlah.

On the Part of the Company.

We the governor and council do engage to secure to the nabob Mebarek ul Dowlah, the Subahdarree of the provinces of Bengal, Bahar, and Orixia, and to support him therein with the Company's forces against all his enemies.

On the Part of the Nabob.

First.

The Treaty which my father formerly concluded with the Company upon his first accession to the Nizamut, engaging to regard the honour and reputation of the Company, and of the governor and council, as his own; and that entered into with my brothers the nabobs Najim ul Dowlah and Syf ul Dowlah, the same Treaties, as far as is consistent with the true spirit, intent, and meaning thereof, I do hereby ratify and confirm.

Second,

The King has been graciously pleased to grant unto the English East India Company the Quannaship of Bengal, Bahar, and Orixia, as a free gift for ever, and I having an entire confidence in them and in their servants settled in this country; that nothing whatever be proposed or carried into Execution by them derogating from my honour, interest, and the good of my country, do therefore for the better conducting the affairs of the Subahdarree, and promoting my honour and interest and that of the Company, in the best manner,

Agree, That the protecting the provinces of Bengal, Bahar, and Orixia, and the force sufficient for that purpose, be entirely left to their Direction and good management, in consideration of their paying the King Shaw Allum by monthly payments, as by Treaty agreed on, the sum of Rupees Two Lacks Sixteen thousand Six hundred and Sixty-six, Ten Annaes, and Nine Pice; (Rupees 2,16,666. 10. 9.) And to me Mebarek ul Dowlah, the annual stipend of rupees Thirty one Lacks, Eighty-one thousand Nine hundred and Ninety-one, Nine Annaes (31,81,991. 9.) viz. the sum of Rupees Fifteen Lacks, Eighty-one thousand Nine hundred and Ninety-one, Nine Annaes (15,81,991. 9.) for my house, servants, and other expences indispensably necessary; and the remaining sum of Rupees Sixteen Lacks (Rupees 16,00,000) for the support of such Sepoys, Peons, and Burgundaffes, as may be thought proper for my Aishwarry only; but on no account ever to exceed that amount.

Third.

The nabob Minauh Dowla, who was at the instance of the Governor and Gentlemen of the Council, appointed Naib of the provinces, and invested with the management of affairs in conjunction

conjunction with Maha Rajah Doolubram and Juggut Seat, shall continue in the same post and with the same authority; and having a perfect confidence in him, I moreover agree to let him have the disbursing of the above sum of Rupees Sixteen Lacks, for the purposes above-mentioned.

This Agreement by the blessing of God shall be inviolably observed for ever.

Dated this 21st day of March, in the year of our Lord, one thousand seven hundred and seventy.
